

2023 SSV

ENJOY

Discover your world.

Nothing else feels quite so good as the total sense of freedom that comes with every Yamaha leisure vehicle. You'll be able to discover many remote places that are out of bounds to most other vehicles – and fully appreciate the world around you.

With their impressive all terrain performance as well as user-friendly technology and outstanding ride comfort, Yamaha SSVs can help you discover the wonders of the off road world – whether you opt for a two, three or four-seater, Yamaha's SSV range enable you to share the experience with family and friends.

Features include the industry-leading Ultramatic automatic transmission with all-wheel engine braking for a smooth and confident ride – as well as Yamaha's highly acclaimed On-Command® system that puts you in full control by making it easy to switch between 2WD and 4WD.

The Yamaha difference.

4WD

With Yamaha's On-Command® system, you can switch from 2WD to 4WD on-the-fly, a great advantage that means you can enjoy seamless – and almost instant - transition from cruising to climbing. This Yamaha-exclusive system is activated by a ergonomic dial knob on SSV models.

Electric Power Steering

Yamaha's speed-sensitive EPS system greatly reduces the physical effort of steering while also assisting the rider when encountering bumps and rocks along the way. This extra comfort is particularly noticeable on longer working days.

Differential Lock

On all SSV models, the Yamaha On-Command® system also features a Differential Lock which acts on the front wheels to give added traction in extreme conditions.

CVT-type transmission

Yamaha's Ultramatic transmission automatically provides the optimum drive ratio so instant power is always available. A sprag clutch engages when slowing down, giving downhill engine braking to the driven wheels, for controlled descents.

Independent Suspension

All Yamaha SSV models - have double A-arm independent front suspension as well as independent rear suspension. All our shock absorbers feature an adjustable spring pre-load facility and selected SSV models are also equipped with adjustable damping. These features help to easily adjust the machine to suit your personal riding style or cargo load and to fine-tune the suspension set-up for optimum performance.

Electronic Fuel Injection

The Yamaha EFI system works with a micro-computer to ensure that a precisely metered flow of fuel/air mixture enters the engine's combustion chamber at all times and under all conditions, to deliver an optimised mix of smooth power and economy.

Gearbox drive selection

The CVT drive line features Manual selection for Forward and Reverse. Including High and Low ratio options for the forward gears as well as a Park position which mechanically locks the gearbox to prevent the wheels turning.

3 year warranty

No matter what you use your Yamaha SSV for, Real World Tough reliability and long service intervals – backed by our 3 year warranty* – mean that your cost of ownership reduces the longer you enjoy your Yamaha.

*YZ1000R SS XT-R comes with 12 month warranty.

Reimagine everything.

Wolverine RMAX4 1000 XT-R

Discover the top-of-the-line Wolverine RMAX4 1000 XT-R and live not just a new experience, but a revelation. This amazing four-seat powerhouse will take you and your friends to explore terrain you never thought possible, with automotive-style comfort and confidence-giving control.

With impressive terrain-handling comes smooth power from our 999cc engine and push-button D-mode control with three Drive positions - Sport, Trail and Crawl. Add XT-R paint, a factory-fitted Warn winch, colour-matched wheels, aggressive Maxxis Carnage tyres - and you begin to see the picture.

The Wolverine RMAX 1000 family follows our development philosophy of “Jin-Ki Kanno” – which translates from Japanese as “The exhilaration of being one with the machine” – bringing you a super-capable off-roader, in which driver and passengers feel confident to master and enjoy the very toughest terrain.

Desert Tan / Tactical Black

Powerful 999cc twin-cylinder engine

The stunning power of the 999cc, DOHC, 8-valve, parallel twin-cylinder engine delivers class-leading, ultra-smooth performance across the power band - and with the red line at 8500 rpm, aggressive and spirited riding is what this machine is all about. For complete peace of mind, our legendary durability and reliability is the hallmark of every Yamaha engine.

Advanced, comfort-focused suspension

The heavy-duty suspension is designed to provide a great handling blend: maximum articulation in low-speed situations - a balanced feel when trail riding - and maximum bottoming resistance with a higher-speed damping feel when manoeuvring aggressively. The wide-arc A-arms paired with easily adjustable FOX shocks provide the perfect front and rear combination.

On-Command 2WD/4WD/Diff Lock

Yamaha's industry-leading On-Command system is recognised as the best 4WD system available in its class. It puts the driver in control, not the machine, via three selectable drive modes, 2WD, 4WD Limited Slip, and Full Diff Lock all available at the turn of a dash-mounted dial. Competitor systems require some wheel spin before diff lock is activated, losing precious traction and time.

Four seats plus cargo

This is the most versatile machine in its class. It seats one to four adults plus cargo and features an ingenious extra storage ability. By folding and sliding the rear seats forward, the rear area can then securely transport up to 272kg with its multiple steel tie-down points. A built-in 2-inch receiver is also fitted and ready to tow a full 907kg load.

Wolverine RMAX2 1000 XT-R

This Wolverine RMAX2 1000 XT-R blurs the boundaries between work and play, and is ready to exceed your expectations with its powerful 999cc engine, unique D-Mode feature with Sport, Trail, and Crawl modes, Yamaha's exclusive Ultramatic® transmission, factory-installed WARN winch and aggressive Maxxis Carnivore tyres.

Yamaha's long experience and knowledge of creating machines with a wide range of capabilities has influenced our development teams to create a striking XT-R model of our next-generation off-road adventurer – this SSV knows how to deliver and surprise to the max.

The Wolverine RMAX2 1000 XT-R follows our development philosophy of “Jin-Ki Kanno” – which translates from the Japanese as “the exhilaration of being one with the machine”. The result is a super-capable off-roader, in which both driver and passenger feel confident to master the very toughest terrain.

Desert Tan / Tactical Black

Powerful 999cc twin-cylinder engine

The stunning power of the 999cc, DOHC, 8-valve, parallel twin-cylinder engine delivers class-leading, ultra-smooth performance across the power band - and with the red line at 8500 rpm, aggressive and spirited riding is what this machine is all about. For complete peace of mind, our legendary durability and reliability is the hallmark of every Yamaha engine.

Advanced, comfort-focused suspension

The heavy-duty suspension is designed to provide a great handling blend: maximum articulation in low-speed situations - a balanced feel when trail riding - and maximum bottoming resistance with a higher-speed damping feel when manoeuvring aggressively. The wide-arc A-arms paired with easily adjustable FOX shocks provide the perfect front and rear combination.

On-Command 2WD/4WD/Diff Lock

Yamaha's industry-leading On-Command system is recognised as the best 4WD system available in its class. It puts the driver in control, not the machine, via three selectable drive modes, 2WD, 4WD Limited Slip, and Full Diff Lock all available at the turn of a dash-mounted dial. Competitor systems require some wheel spin before diff lock is activated, losing precious traction and time.

Ready to work

The Wolverine RMAX2 1000 XT-R features a tilting cargo bed to simplify hauling duties. Built with hydraulic assistance and a robust latch system, the bed transports up to 272kg with multiple steel tie-down points to secure cargo or attach accessories. Add in a full 907kg of towing capacity through a standard 2-inch receiver, and the Wolverine RMAX2 1000 XT-R is ready to get to work when you are.

Reimagine everything.

Wolverine RMAX2 1000 XT-R

Four seater fun with
two seater agility.

Wolverine X4 XT-R

Wolverine X4 XT-R delivers superior handling, especially on tight, technical trails, combined with Yamaha's legendary Real World Tough durability and reliability.

Smooth, ultra-quiet power comes from an 847cc twin-cylinder engine, along with Yamaha's Real World Tech including the proven Ultramatic CVT transmission, Yamaha's On-Command System with 2WD, 4WD and 4WD with full differential lock, and Yamaha's exclusive EPS.

Kitted out in top-shelf XT-R trim including durable 27-inch radial tyres, a WARN® VRX 4500 winch, and high-quality painted body and graphics package with colour-matched aluminium wheels, Wolverine X4 XT-R sits four in comfort ready to take on tough terrain.

Desert Tan / Tactical Black

Powerful twin cylinder engine

The 847cc parallel twin cylinder engine produces high levels of linear torque, giving the X4 XT-R the ability to carry four full-sized adults and their cargo across technical and hilly landscapes with ease. For a stronger driving force at low and high speeds, the cross-plane concept design features a long stroke together with a 270-degree crank.

Self leveling rear suspension

Whether you're riding alone or with passengers and cargo, the self leveling rear suspension makes sure that every journey is comfortable. Whatever the load, this intelligent rear suspension system helps to maintain a consistent ride height that enhances the overall ride quality - even on rugged terrain.

On-Command 2WD/4WD/Diff Lock

Yamaha's renowned On-Command 4WD system lets you switch between 2WD, limited-slip 4WD and a fully locked differential 4WD. Unlike competitors' automatic 4WD systems, On-Command puts the driver in full control to make the most of available traction in any sort of terrain.

Adaptable layout

With 100mm of front/rear adjustability, the driver's seat can be set up to suit your individual preference - and the steering wheel can be moved through 12 degrees of tilt to achieve the optimum ergonomics. And when you're not carrying passengers in the back, the two rear seats can be folded to increase the cargo bed size and capacity.

Wolverine X2 XT-R

The Wolverine X2 XT-R features a range of refinements that further boost capability, confidence and comfort in rough terrain. The robust chassis is kitted out in top-shelf XT-R trim including durable 27-inch radial tyres, a WARN® VRX 4500 winch, and high-quality painted body and graphics package with colour-matched aluminium wheels.

Power is provided by the smooth 847cc twin cylinder engine and comfort provided by high back seating with plenty of legroom.

Wolverine X2 XT-R - when the going gets XT-Reme.

Desert Tan / Tactical Black

Powerful twin cylinder engine

The Wolverine X2 XT-R is powered by an 847cc DOHC eight-valve parallel-twin engine featuring a full range of advanced Yamaha technology. Forged pistons and connecting rods ensure durable high-rpm performance with Yamaha's 270° Crossplane Concept Crankshaft for linear torque development and excellent power throughout the rpm range. To improve efficiency, the engine features a dry-sump design for a more compact layout and an offset cylinder block to reduce friction losses. Rubber engine mounts and a geared counterbalancer ensure smooth running from idle to redline.

High performance suspension

The Wolverine X2 XT-R features well-damped suspension at all four corners for improved chassis control and handling feel. High performance KYB® piggyback shocks built specifically for Yamaha are fully adjustable with spring preload, rebound, and high- and low-speed compression damping to allow tuning to suit a wide range of driver preferences and conditions.

On-Command 2WD/4WD/Diff Lock

Yamaha's renowned On-Command 4WD system lets you switch between 2WD, limited-slip 4WD and a fully locked differential 4WD. Unlike competitors' automatic 4WD systems, On-Command puts the driver in full control to make the most of available traction in any sort of terrain.

Enhanced comfort

The Wolverine X2 XT-R takes comfort to a whole new level. The driver's seat is adjustable while the driver pedals and seatbelts can be easily adjusted without the need for tools to improve comfort for a wider range of driver heights. The blue backlit meter makes reading the display a breeze while the soft touch knee area also guarantees that you'll never want to get out of the Wolverine X2 XT-R.

Share your adventures.

Wolverine X2 XT-R

**Tough Aussie-spec
utility.**

Wolverine X2 Utility

The Wolverine X2 Utility is specifically designed for the tough environment of Aussie farms. Featuring Yamaha's legendary Real World Tough durability and reliability, the X2 Utility prioritises work over recreation by featuring a larger cargo bed than standard - the same hydraulic-assist tilting device fitted to the hard working Viking three seater utility SSV.

Smooth, ultra-quiet power comes from an 847cc twin-cylinder engine, along with Yamaha's Real World Tech including the proven Ultramatic CVT transmission, Yamaha's On-Command System with 2WD, 4WD and 4WD with full differential lock, and Yamaha's exclusive EPS. Kitted out to tackle tough tasks, the X2 Utility comes with high-back seats, refined cabin features and aluminium wheels. It also shares the comfort, capability and confidence of the XT-R model - but is developed for the man on the land who values practical features to help get the job done.

Steel Blue

Powerful twin cylinder engine

The 847cc parallel twin cylinder engine features the full range of Yamaha's advanced performance technologies. Forged pistons and connecting rods ensure durable high-rpm performance, with Yamaha's 270° Crossplane Concept Crankshaft for linear torque development and excellent power throughout the rpm range. To improve efficiency, the engine features a dry-sump design for a more compact layout and offset cylinder block to reduce friction loss, while rubber engine mounts and a geared counter balancer ensures smooth running from idle to redline.

High performance suspension

The Wolverine X2 Utility features well-damped suspension at all four corners for improved chassis control and handling feel. Built for Yamaha by KYB®, these shocks give the X2 Utility a flexible, balanced ride character, whether the day calls for cargo carrying or trail blasting.

On-Command 2WD/4WD/Diff Lock

Yamaha's renowned On-Command 4WD system lets you switch between 2WD, limited-slip 4WD and a fully locked differential 4WD. Unlike competitors' automatic 4WD systems, On-Command puts the driver in full control to make the most of available traction in any sort of terrain.

Larger cargo bed

The Wolverine X2 Utility features a Viking-spec large tilting cargo bed - only fitted to this Australian model. The cargo bed is wider, longer and deeper than standard and designed to take a pallet. Add in a full 907kg of towing capacity thanks to the standard 2-in receiver, and the Wolverine X2 Utility is ready to get to work when you are.

**Functionality, durability
and all-terrain ability.**

Viking / Viking SE

The three seat Viking is ready to conquer whatever comes its way with a powerful 686cc, liquid-cooled, fuel injected, SOHC power plant. This engine produces strong low-end acceleration and pulls hard through the rpm range to deliver excellent power for getting the job done or when hitting the trails.

The spacious three-seat layout and walk-through floor ensure a comfortable and safe drive every time for you and your colleagues. Its double wishbone suspension is ready to take on the most rugged terrain - while the pallet sized tipping cargo bed can carry loads up to 272kg.

Additional accessories on the Viking SE include high-quality painted bodywork, aluminium wheels, overfenders, hard sun-top and under-seat storage.

Viking SE - Copperhead Metallic

Steel Blue

Torque engine

The Viking comes equipped with Yamaha's powerful 686cc engine featuring a broad, usable powerband that's perfect for working hard or playing hard. Liquid-cooling provides consistent performance, and the four-valve head with 10.0:1 compression delivers optimum torque for virtually any workload.

Pallet-sized rear cargo bed

To underline its serious commercial, industrial and farming applications, the Viking is equipped with a full-sized cargo bed which can accommodate a pallet. The tough steel-lined bed measures 1380mm wide x 925mm long x 315mm deep, and has a useful carrying capacity of 272kg – and to secure the load, the cargo bed is equipped with four tie-down hooks.

Comfortable three-seat cabin

This true three-passenger machine achieves driver and passenger comfort and security with a handhold, padded headrests and three-point seat belts for all riders. Extensive noise and vibration reduction measures provide a smooth and quiet ride. The superior seating position, adjustable driver's seat and an offset middle seat all provide unmatched comfort that riders will appreciate.

On-Command 4WD

Industry-exclusive three-position On-Command® 4WD system lets you switch between 2WD, limited-slip 4WD and fully locked differential 4WD. Unlike competitors' automatic 4WD systems, On-Command® puts the driver in full control to make the most of available traction in various types of terrain.

YXZ1000R SS XT-R

The YXZ1000R SS XT-R is the most focused, high-performance SSV in the world. Every system on board ensures the highest level of performance in all terrains - from dunes and deserts to tight woods and muddy trails.

A range of stylish, high-spec components are specified including advanced FOX® Dual Spring suspension, beadlock rims wrapped in Yamaha-exclusive Maxxis® Carnage™ tyres, and enhanced underbody protection.

Upgraded centreline lighting provides enhanced visibility. A custom front grab bar mounts a heavy duty WARN® winch package with integrated driver controls while the composite suntop, high-quality painted bodywork, contrast-stitched seats and auxiliary lights complete the package.

Desert Tan / Tactical Black

Industry first three-cylinder engine

Designed to bring a Pure Sport riding character like nothing else in the SSV world, the YXZ1000R SS XT-R engine was built to deliver high-revving power with the flexibility and character that only an inline triple can provide. With a compact, counterbalanced, DOHC cylinder head, a 11.3:1 compression ratio and dry-sump lubrication, the YXZ1000R SS XT-R engine offers exceptional power, a thrilling 10,500 rpm redline and high-strength internals ready to handle high-output demands.

Supersport style dashboard

The YXZ1000R SS XT-R features instruments inspired by Yamaha's high-performance supersport motorcycles. Functions include a digital speedometer, analog tachometer and programmable shift light with readouts for 4WD mode, gear position, fuel level, trip meters, hour meter, coolant temperature warning and a clock.

Plush suspension

The YXZ1000R SS XT-R features top-shelf FOX® 2.5 Podium® RC2 shocks with dual-spring-rate adjustable crossovers. All four corners are fully adjustable - spring preload, crossover adjustment, rebound and both high- and low-speed compression damping - with a huge 411mm of front travel and 432mm at the rear along with exceptional ride quality, tuneability and handling.

Yamaha paddle shift

Nothing in the SSV world can match the feeling of banging through the gears using the YXZ1000R SS XT-R's Sport Shift, a sequential five-speed manual transmission featuring Yamaha Chip Controlled Shift (YCC-S) technology. This system combines the power, durability and efficiency of a traditional manual transmission with an advanced automatic clutch system controlled with sporty paddle shifters mounted to the steering column.

Pure sports
performance.

SAFETY

Be SSV Safe.

1. Select the right vehicle:

Select the vehicle that is best suited to your situation, consider the terrain, the drivers and tasks and choose the most appropriate vehicle.

2. Protect yourself:

Make sure you are alert and able to operate the SSV safely;

- Use the seatbelts, doors and netting and keep your whole body within the SSV
- Always wear a helmet and protective gear
- Do not use the SSV whilst under the influence of drugs or alcohol

3. Be trained:

Training will enable you to fully understand the vehicle attributes and limitations, and assist you with techniques and strategies for safe use.

4. Safe users and loads:

- Never allow children under the age of 16 to operate the SSV
- Never carry more passengers than there are seats and seatbelts, and do not carry passengers in the tray

- Never overload your vehicle and reduce loads on difficult or steep terrain
- SSVs are designed for off-road use only, do not drive on paved surfaces

5. Understand and follow the manufacturer's recommendations:

- Always read the manufacturer's recommendations
- Take note of the warning labels on the vehicle and the owner's manual
- Maintain and service your vehicle so it's in good working order

SSV Accessories.

Genuine Yamaha accessories are extensively available in a range of options for all Yamaha models.

Whether you are chasing added protection, additional storage or the benefits and comfort that comes from an enclosed cabin, genuine accessories are made for your Yamaha, by Yamaha.

Speak to your local Yamaha dealer for advice on the best accessory set up to suit your preference or check out www.shopyamaha.com.au for the complete range of Yamaha accessories, apparel and merchandise.

FINANCIAL SERVICES

Regardless if your passion is land or marine based, Yamaha's broad range of products is all about the experience. At Yamaha Financial Services we share and understand this passion. We understand your enthusiasm for our products and your dreams for ownership. Our experienced team is ready to assist you with a finance offer to suit your needs.

Whatever Yamaha product you dream to own, we are also here to cover it. We understand how important your Yamaha product is. Yamaha Motor Insurance enables you to benefit from the complete range of protection available under the Yamaha umbrella.

MAKE YOUR DREAM
A REALITY

Yamaha Motor Finance

Yamaha Motor Finance Australia Pty. Ltd. (YMF) is a 100% owned subsidiary of Yamaha Motor Australia Pty Ltd that has been established to give Yamaha customers access to specially tailored finance packages on Yamaha's huge range of motor products.

If you are looking to finance your new Yamaha powered product, YMF provides real value.

-  Ability to finance accessories and approved insurances
-  Flexible loan terms available from 2 to 5 years
-  Fixed interest rate and repayments
-  Simple and convenient
-  Available from your local Yamaha dealer

 **Contact YMF today 1800 123 100**

Yamaha Motor Insurance

We are motorcycle and marine specialists and we understand how important your Yamaha powered Bike and Boat are to you and that is why we have motorcycle and marine insurance products that offer you a range of benefits not available anywhere else.

Yamaha Motor Insurance enables you to benefit from the complete range of protection available under the Yamaha umbrella. Offering you peace of mind cover, YMI is the ultimate in motorcycle and pleasure craft protection at competitive rates.

Off-road Rider Insurance

-  Cover against fire and theft
-  New for old replacement
-  We will pay up to 50% of the repair cost if you have an accident
-  Cover whilst your motorcycle is being transported
-  Up to \$500 emergency towing
-  Easy claims process

Be Smart. Keep it Genuine.

To ensure that your Yamaha delivers optimum performance with long-term reliability, we recommend that you always use Yamaha Genuine Parts. Our high-quality spare parts comply with proven safety standards, fit perfectly and have a high resistance to wear - giving you peace of mind.

By using an Official Yamaha Dealer for servicing, you can be sure that all maintenance is carried out by highly skilled Yamaha Technicians using Genuine Parts and Yamalube products.

Our technicians are regularly trained at the Yamaha Technical Academy, giving them the expert knowledge and in-depth experience needed to keep your Yamaha in factory-fresh condition. For more detailed information please consult your local Yamaha dealer or visit our website.

A Liquid Engine Component

At Yamaha we appreciate that our products instill a unique pride of ownership amongst our customers, and in recognition of their loyalty to the brand we have developed the Yamalube range of lubrication and maintenance care products.

Our Yamaha engineers consider oil as a liquid engine component that is one of the most important parts of your Yamaha engine. Choosing Yamalube really does make a difference.

By always using Yamalube you can be sure that your engine has the potential to run at peak performance, and deliver the durability and reliability that you expect from every Yamaha. We also manufacture a range of care products that keep your pride and joy in tip-top conditions. Your local Yamaha dealer can advise you on the best Yamalube product for your Yamaha or visit our website.

Always remember to review your Yamaha Owner's Manual before you drive. Before each drive, take time to check all your equipment. Always wear an approved helmet, eye protection, long-sleeved shirt, long trousers, gloves and boots. And always be sure your SSV is in first-class condition before driving. Keep it well-maintained and always outfitted in accordance with state and local laws. Every SSV driver should be aware of the limits of his or her skills, experience and abilities and drive accordingly. Beginners should be extremely cautious and allow extra time and distance for manoeuvring and braking. All drivers should drive well within the limits of their abilities, never beyond them. Always drive in a responsible manner, respecting the environment as well as all state and local laws. Drive responsibly, and remember, SSV drivers, as all motorists, must practice defensive driving. Do not drink and drive. It is illegal and dangerous. Yamaha encourages you to drive safely and respect the environment. Specifications and colour options are subject to change without notice, in accordance with national regulations and legislations. Copyright is YMA. Yamaha reserves the right to change specifications without notice. Confirm with your dealer before purchase. Specifications and measurements are approximate and subject to variances.
